April is Financial Literacy Month,
and we are proud to receive a grant from **Capital One** for \$15,000,
which supports our
Pathways to Stable Housing program.

Housing is a basic need for everyone - the foundation from which families and individuals can live self-sufficiently.

This program will support distressed homeowners and renters in Bucks County who face loss of income, eviction, default or foreclosure, and help them regain long-term home sustainability.

**Get Help With
Housing**

The Credit Counseling Center is a Pennsylvania Housing Finance Agency (PHFA) and Housing and Urban Development (HUD) approved agency.
